

ULINE H-4507 MICROFIBER MOP SYSTEM BUCKET

1-800-295-5510
uline.com

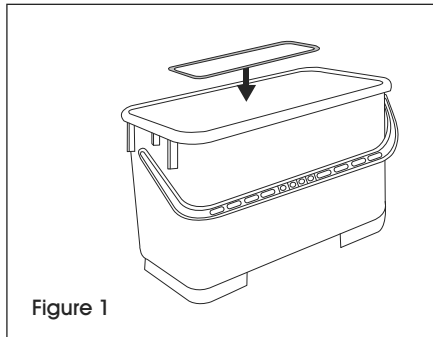

INSTRUCTIONS

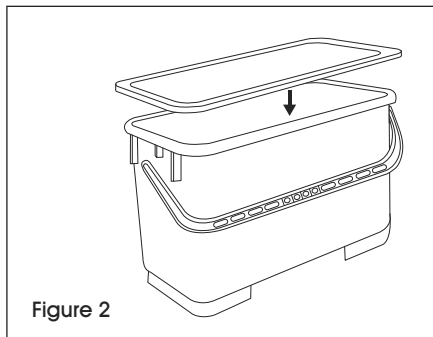

1. Fill bucket with appropriate amount of liquid/cleaning solution.

 **NOTE:** Use 6 oz. of liquid/cleaning solution per pad. You want to dampen pads, not soak them.

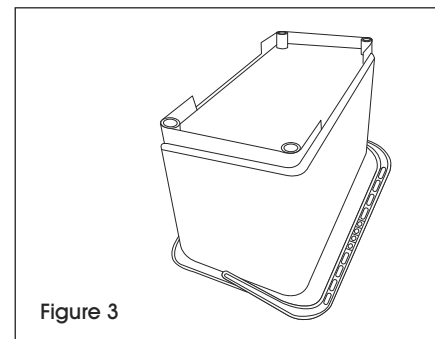

2. Place pads into bucket (pads facing upside-down). (See Figure 1)

3. Put leakproof lid on bucket. (See Figure 2)

4. Flip bucket upside-down (lid on floor) so that the liquid/cleaning solution is dispersed throughout all microfiber pads. Turn bucket right side up and confirm all pads are dampened. (See Figure 3)

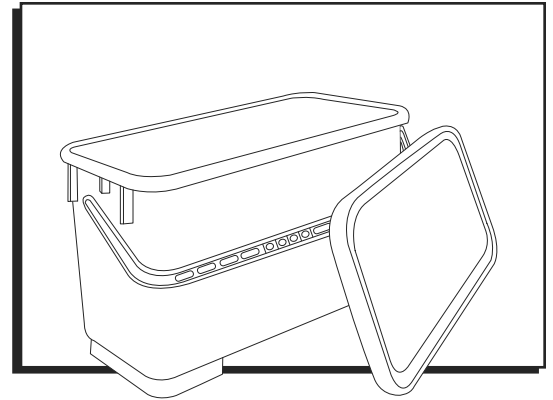

5. Use one pad at a time as needed.

uline.mx

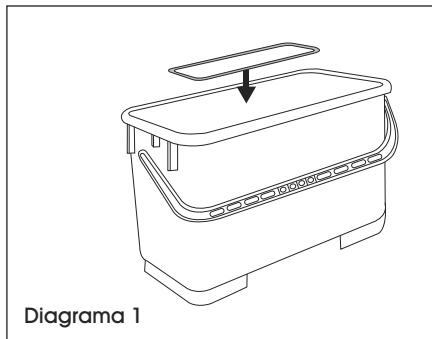

INSTRUCCIONES

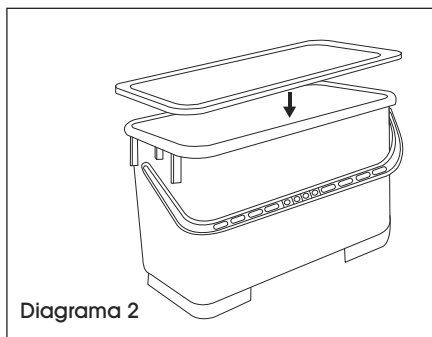

1. Llene la cubeta con la cantidad apropiada de líquido/solución limpiadora.

 **NOTA:** Utilice 6 oz. de líquido/solución limpiadora por almohadilla. El punto es humedecer la almohadilla, no empaparla.

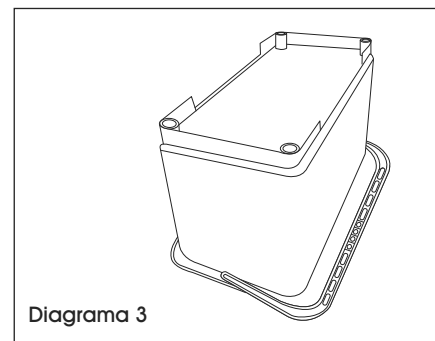

2. Coloque las almohadillas en la cubeta (las almohadillas deben de ir al revés). (Vea Diagrama 1)

3. Coloque la tapa a prueba de fugas en la cubeta. (Vea Diagrama 2)

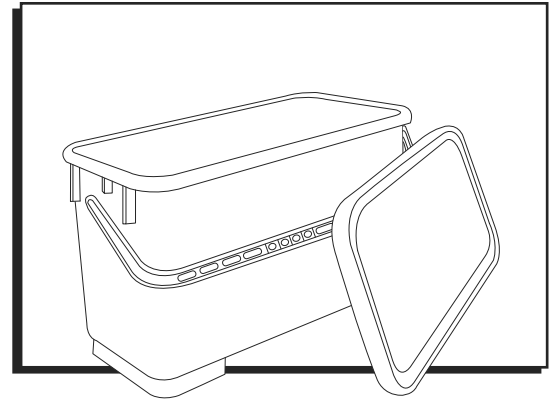

4. Voltee la cubeta al revés (con la tapa al piso) para que el líquido/solución limpiadora se disperse a través de las almohadillas de microfibra. Vuelva a voltear la cubeta de la manera correcta y confirme que todas las almohadillas estén húmedas. (Vea Diagrama 3)

5. Utilice una almohadilla a la vez como se vayan necesitando.

INSTRUCTIONS

1. Remplissez le seau avec une quantité appropriée de liquide/produit nettoyant.

 **REMARQUE : Utilisez 6 oz de liquide/produit nettoyant par tampon. Il faut humecter les tampons et non les imprégner de produit.**

2. Insérez les tampons dans le seau (mis à l'envers). (Voir Figure 1)

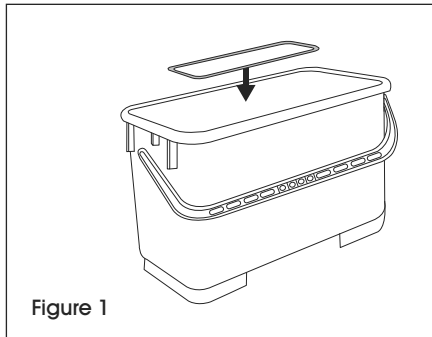

Figure 1

3. Placez le couvercle étanche sur le seau. (Voir Figure 2)

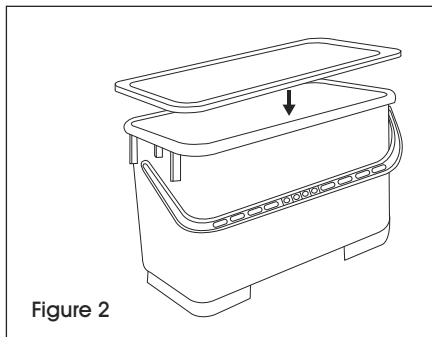

Figure 2

4. Tournez le seau à l'envers (couvercle sur le plancher) afin que le liquide/produit nettoyant se disperse dans les tampons en microfibre. Retournez-le à l'endroit et vérifiez que tous les tampons ont bien été humectés. (Voir Figure 3)

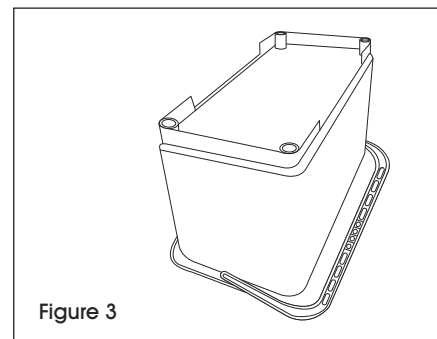

Figure 3

5. Utilisez un tampon à la fois et au besoin.
